

## BRINGING THE POWER OF SAAS TO SECURITY CONSULTANTS

QualysGuard Consultant Edition is designed for security services organizations, security consultants, and compliance auditors that provide vulnerability assessment, compliance assessment and risk reduction services. Using the power of the SaaS model, QualysGuard Consultant Edition delivers comprehensive security and compliance services – including accurate network auditing, comprehensive vulnerability assessments, policy compliance, web application scanning and data-rich customized reports from a one unified SaaS solution.

### QualysGuard Virtual Scanner

The new QualysGuard Consultant Edition now includes virtual scanners (vScanners) that simplifies deployment allowing consultants to quickly and easily set up vScanners, on their laptops or on clients' sites to initiate engagements and perform security assessments. Consultants can also manage multiple vScanners for clients from their QualysGuard subscriptions, reducing their time on site.

Virtual Scanner Running on Laptop

### QualysGuard Consultant provides:

- Comprehensive security and compliance auditing
- Scalability and accuracy of results
- Ease of use and deployment with new vScanners
- Highly customizable reporting engine in the cloud
- Custom controls for policy compliance engagements

*“False positives and false negatives during an engagement increase consultant review time. QualysGuard’s accuracy and reliability has helped us avoid unnecessary activities troubleshooting invalid results.”*

Senior Director, Consulting  
**Symantec Professional Services**

*“The centralized model and appliance solution provide an extremely effective method for us to manage assessments with a nationwide staff and global customer base.”*

Vice President, Professional Services  
**FishNet Security**

*“QualysGuard’s consultant package provides the best management reporting tools we’ve seen in the industry. Our customers appreciate the quality, in-depth detail, and easy-to-understand graphical and empirical data the report provides.”*

Managing Partner  
**Digital Resources Group**

### Qualys Awarded Winner for:

- Best Security Company
- Best Vulnerability Management Tool
- Best SME Security Solution
- CEO of the Year

## QualysGuard Consultant Features:

### Reporting

- Web-based reporting immediately available from any location
- Custom report templates for flexible client reporting
- Centralized data saves time spent consolidating results from multiple tools
- Graph and trend summary reports for executives
- Detailed reports with verified remedies easily appended to deliverables
- Expedite remediation with patch reporting
- Network topology visualization to easily assess and scope client networks
- Correlation with exploitability information from Immunity, Core Security, and Metasploit
- Export reports to Microsoft Word, HTML, MHT, PDF, CSV and XML formats for easy import into deliverable templates

### Accurate and Thorough Security Audits

- Comprehensive vulnerability KnowledgeBase incorporates thousands of unique checks and compliance controls
- Web application testing for vulnerabilities, including: SQL Injection, cross-site scripting and web site misconfigurations
- Automatic daily updates to vulnerability database eliminates the need to download and install updates before scanning
- Industry standard support for vulnerability scoring with the Common Vulnerability Scoring System (CVSS), and addition of custom detections using Open Vulnerability Assessment Language (OVAL)
- Map feature detects and identifies servers, desktops, routers, wireless access points and other networked devices
- Unique fingerprints for over 2,000 operating systems, applications and protocols
- Non-intrusive detection techniques minimize impact on customer networks
- Scanning methodology supports both authenticated and non-authenticated methods for various technologies and operating systems
- Customized scans configurable for optimal performance based on client's network

### Policy Compliance

- Trusted, third-party auditing and reporting meets the compliance needs of multiple compliance frameworks including CIS, CobIT, ISO and NIST.
- Flexibility in creating custom controls to automate the validation of systems for regulatory gap analysis and compliance with industry regulations such as HIPAA and ISO 27002.
- Automated Self-Service PCI compliance certification

### Support/Maintenance

- 24x7x365 live customer support
- QualysGuard requires no additional maintenance or operating costs
- All functionality and management is available from a Web browser
- Daily signature updates and feature enhancements are completed automatically, transparent to the user
- Technical training and certification workshops

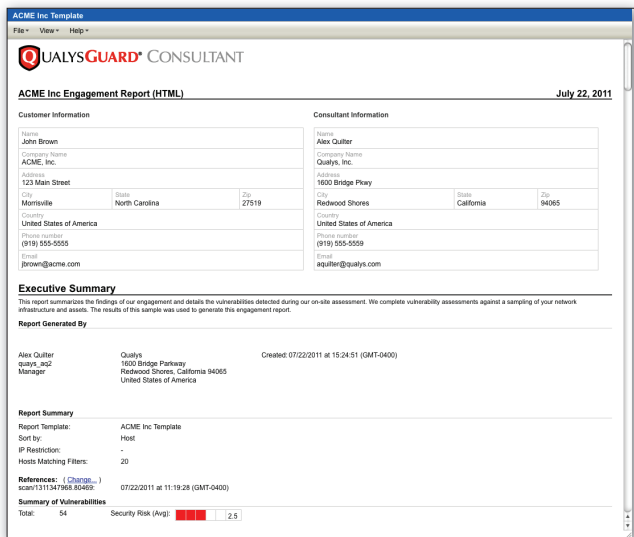

### QualysGuard Consultant Starter Kit

The QualysGuard Consultant Starter Kit includes:

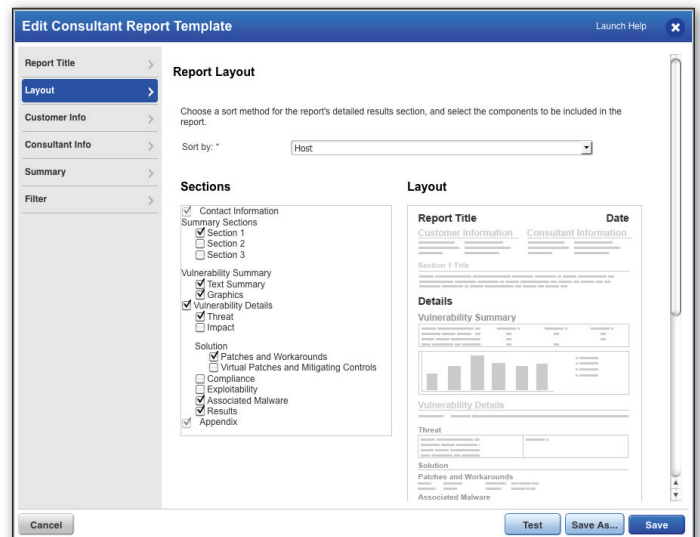

- (1) Scanner Appliance OR (1) Virtual Scanner
- Unlimited Network Discovery Maps
- 250 Vulnerability Scans
- Professional Travel Case
- Unlimited User & Manager Accounts
- Co-branded, customized reporting options

This special Starter Kit is only available to consultants. Additional Scanner Appliances and scans (VM, PC or WAS) can be purchased at any time. Please contact Qualys for information on additional QualysGuard Consultant packages and pricing.
